About us.

With the SA Governor, the Honourable Hieu Van Le AC as our patron, the Leaders Institute of South Australia is a not-for-profit association which exists to develop, inspire and connect exceptional leaders who are driven to create a better State.

Our innovative, holistic leadership development programs expand and enrich the capability and performance of individuals and teams at all levels – from the most senior and experienced leaders to those in their first leadership role. We've been proven to be effective in developing and energising leaders across all sectors - business, government and the community.

We ensure our graduates have impact and actively contribute to the creation of a better State through our extensive alumni, volunteer and partner networks and involvement in growing and developing our businesses and community.

In our latest Strategic Plan we have committed to broadening and deepening our reach into rural areas of this State.

Our programs include our flagship Governor's Leadership Foundation program, peer coaching programs, psychometric testing, Governance Masterclasses and the Limestone Coast Leadership Program (in conjunction with the Limestone Coast Local Government Association). We also develop and deliver tailored programs to assist organisations with specific development/team building needs.
